

HOW TO CONNECT TO SD35-SECURED SSID ON A MACBOOK

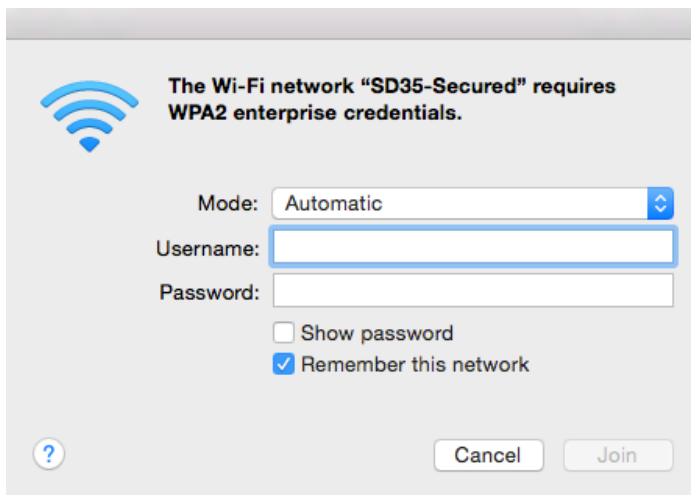

1) **Click** on the **Wireless Icon** in the upper right corner of your screen

2) **Choose the SD35-Secured SSID**

3) Once the WPA2 enterprise credential window pops up, please **enter your network credentials** to log in and **click on Join**. Your **employee ID number** is the Username and your **Outlook/Email password** is the Password.

Important Note: Please **do not change other settings** (the 'Mode' should stay Automatic and 'Remember this network' option should also stay checked)

4) **Done!** 😊
